PRODUCTION PLEDGES OF USSR ELECTRICAL
 AND COMMUNICATIONS EQUIPMENT PLANTS

Since 29 August 1952, electrical and communications equipment plants have reported the following pledges made in honor of the 19th Congress of the VKP (b)

Numbers in parentheses refer to list of appended sources. 7

Electrical Industry

The Kiev Tochelektropribor Plant pledges:

1. To fulfill the 10-month gross-production plan on 15 October.
2. To lower production costs 2 percent beyond the plan.
3. To fulfill the 1952 plan for increasing labor productivity by 1 October.
4. To build four new types of electrical instruments and to produce experimental models of five types of precision high-speed relays for the Kuybyshev-Moscow power line. (1)

The Vil'nyus Electric Meter Plant pledges:

1. To fulfill the 1952 plan on 28 December.
2. To produce 5,000 electric meters above the plan.
3. To increase labor productivity 4 percent.
4. To lower production costs 2 percent below the plan.
5. To save 8 percent more raw and other materials and electric power than the plan calls for.

6. To save 500,000 rubles by raising labor productivity and lowering production costs.

The Vil'nyus El'fa Electrical Equipment Plant pledges:

1. To fulfill the 1952 plan on 25 December.
2. To exceed the production plan by 180,000 rubles.
3. To increase labor productivity 2 percent.
4. To increase production 12 percent.
5. To save 5 percent more raw and other materials, fuel, and electric power than the plan calls for.
6. To lower production costs 2 percent beyond the plan.
7. To save at least 300,000 rubles above the plan.
8. To speed up the turnover of working capital by 5 days.(2)

The Leningrad Elektrosila Plant imeni S. M. Kirov pledges:

1. To fulfill with excellent-quality products the orders for turbo and hydro-generators, electric motors, and other machines for electric power stations and GES, as noted in the draft directive of the 19th Congress of VKP(b) for the fifth Five-Year Plan.
2. To fulfill the 9-month plan on 20 September and to exceed production goals by millions of rubles.
3. To exceed by 8 percent the 9-month plan to increase labor productivity.
4. To utilize organizational and technical measures which will save 5,700,000 rubles annually; to introduce 1,100 innovators' suggestions and owing to this, to save 4,200,000 rubles annually.
5. To produce above the plan from the material saved in 1952, turbogenerators with a total capacity of 50,000 kilowatts.
6. To make preparations, in 1952, for the production of the first 105,000-kilowatt generator for the Kuybyshev GES.
7. To produce the first hydrogenerator for the largest fifth Five-Year Plan construction project, the Gor'kiy GES project.
8. In connection with the 19th Party Congress directive concerning the exploitation of the power resources of the Angara River, to complete plans for building a superpower hydrogenerator on 20 September 1952.
9. To increase considerably the quality of its products and to lower losses due to rejects.

The Tashkent Electric Cable Plant pledges:

1. To fulfill the 9-month plan on 27 September, and to produce above the plan 70 kilometers of power cable, 40 kilometers of control cable, 60 tons of bare cable, and other products with a total value of 2,500,000 rubles.

50X1-HUM

To attain a higher quality of products and lower losses from rejects.

2. To fulfill the most important orders for excavator cable used at the Kuybyshev GES project and for railroad blocks. To produce cable for the petroleum industry ahead of schedule.

3. To save, in 9 months, 1,200,000 rubles and 700,000 kilowatt-hours of electric power.

4. To exceed by 6 percent the plan for increasing labor productivity in September. (4)

The Leningrad Sevkabel' Plant pledges:

1. To fulfill the September plan 102.8 percent.

2. To exceed the 1952 plan for increasing labor productivity.

3. To decrease the established norm of waste of nonferrous metals by 10 percent.

4. To exceed the plan for lowering production costs by the end of 1952.

5. To fulfill all orders for the great construction projects ahead of schedule.

6. To save 2 million rubles annually by using innovators' suggestions.

7. To produce, in 1952, 15 kilometers of coaxial cable of a new design. (5)

The Moskabel' Plant pledges:

1. To fulfill the September production plan ahead of schedule.

2. To exceed production goals by 500,000 rubles.

3. To increase labor productivity by $\frac{1}{2}$ percent.

4. To save 40 tons of lead. (6)

The Kiev Ukrkabel' Plant pledges:

1. To fulfill the September production plan 108 percent.

2. To guarantee excellent-quality production. (7)

The Riga REZ Electrical Machine-Building Plant pledges:

1. To fulfill the September plan ahead of schedule.

2. To improve quality indexes.

3. To build 14 new types of products in September. (8)

Communications Equipment Industry

The Riga VEF Plant pledges:

1. To fulfill the 9-month plan on 15 September and to exceed the plan for commodity output by several million rubles.

2. To build six new types of products during the third quarter.
3. To exceed its 9-month assignment for labor productivity by 5.5 percent.
4. To save one million rubles during the third quarter by using innovators' suggestions.
5. To lower rejects 30 percent below the second quarter total.
6. To save the following during the third quarter: 50,000 kilowatt-hours of electric power, 25 tons of ferrous metals, and 5 tons of nonferrous metals.(9)

The Minsk Radio Plant, Ministry of Local Industry, Belorussian SSR, pledges:

1. To fulfill the 9-month plan on 26 September.
2. To exceed the production plan by hundreds of thousands of rubles.
3. To produce the Belarus' Class 1 radio set and to develop a new model radiophonograph.(10)
